Employment First is...

• A movement to deliver meaningful employment, fair wages, and career advancement for people with disabilities.
The Path to Employment

Sheltered workshops; work activity centers
Individual or group supported employment
Competitive, integrated employment

Who Benefits from Employment First?

Employers: receive talented employees and specialized support for job acquisition and retention
Taxpayers: spend less money than they would to support an individual with disabilities in a segregated day program and gain the economic contributions and tax revenue of fair wages
People with Disabilities: gain employment, fair wages, benefits, and the dignity that arises from paid employment
Communities: feel the economic force of fair wages spent in the local economy and the valuable lesson of witnessing the many abilities of people with disabilities
Families: see a family member in a fully competent role in the workplace
APSE and Employment First

Employment First Works

**APSE’s Employment First Statement**

Employment in the general workforce is the first and preferred outcome in the provision of publicly funded services for all working age citizens with disabilities, regardless of level of disability.
Advancing Equal Employment Opportunities and Creating Inclusive Workplaces Part 1

Increasing the rate of employment

The current low participation rate of citizens with disabilities in the workforce is unacceptable.

Decreasing poverty and isolation

Access to “real jobs with real wages” is essential if citizens with disabilities are to avoid lives of poverty, dependence, and isolation.
It is presumed that all working age adults and youths with disabilities can work in jobs fully integrated within the general workforce, working side-by-side with co-workers without disabilities, earning minimum wage or higher.

As with all other individuals, employees with disabilities require assistance and support to ensure job success and should have access to those supports necessary to succeed in the workplace.
Promoting self-determination

All citizens, regardless of disability, have the right to pursue the full range of available employment opportunities, and to earn a living wage in a job of their choosing, based on their talents, skills, and interests.

Ensuring policy alignment

Implementation of Employment First principles must be based on clear public policies and practices that ensure employment of citizens with disabilities within the general workforce is the priority for public funding and service delivery.
Inclusion or exclusion of the specific term “Employment First” does not determine whether a public system or agency has adopted Employment First principles. Such a determination can only be made in examining whether the underlying policies, procedures and infrastructure are designed for and ultimately result in increased integrated employment in the general workforce for citizens with disabilities.

Universal Employment Competencies

“Competency” is defined as the ability to do something successfully and efficiently. These competencies, therefore, are designed to guide the successful and efficient implementation of services.
