STEP 3: KNOW THE COMMUNITY

19

20

“Community mapping is actively collecting information about the resources and places in any given community and knowing exactly where each is located.”

20

21

Community Mapping

“A tool that can be used to tell a story about what is happening in our communities.”

Walk around the block and collect “data” which includes businesses and organizations in the neighborhood

- “I’m just walking around my neighborhood, getting to know the businesses”

Questions to ask:

- What do you do here?
- How long have you been in business?
- What do you like about your job?
- What made you choose this neighborhood?

21

22

Think About How You Got Your First Job?

22

What Happens Typically?

1. Supervisor hires someone they know

- Minimizes risk & saves money

2. Supervisor hires someone a co-worker knows

- Co-worker has vested interest & can discern whether the candidate will be a good fit

3. HR hires someone they have already interviewed

- Reduces effort and resources to recruit additional applicants

4. Business contacts staffing agencies

- Increased risk in rejecting applicants & far more labor intensive than other options

5. Business advertise the job opening

- Large investment of time and money for candidates who have not been screened

SPEAKING
OPPORTUNITIES

Listen!

- The key to being a good conversationalist is being a good listener.
- Give them the opportunity to share with you, teach you, assist you.
- When you do all the talking, the person may feel you are uninterested in what they have to say.
- We're there to learn, learn, learn!
- 80/20 Rule!

Don't Ask For a Job! What?

Networking is not asking everyone you know for a job!

Ask people for information that will assist you in finding the right fit.

Build a relationship and establish rapport.

The ultimate goal is that your contact will contact you.

27

Ask Questions!

How long have you been with this company?

How long have you been in this field?

What do you like about your job?

What type of training did you need for this position?

What is the culture of this company?

27

28

Ask For Help

- Tap into your networks & the networks of people you know
- Each person you meet will know approximately another 200 people
- Gain introductions to some of these contacts to quickly increase your network and your chances of finding an extremely valuable connection.
- Ask your contacts if they can recommend a professional organization or the names of some of the people you should be talking with

28

29

Keep In Touch!

To establish rapport with another person, create a reason to keep the relationship going.

- Join a membership club
- Attend the same events
- Don't put them in a situation where they will say no! (Like asking for a job before the relationship is developed.)

29

30

Who's in Your Circle of Influence?

The diagram illustrates a central green circle labeled "Self". Surrounding it are eight categories, each with an icon: Education (graduation cap), Faith Based (mountain and cross), Medical (Caduceus), Recreation (magnifying glass), Civic/Political Organizations (hand holding a sign), Social Groups (group of people), Professional (computer monitor), and Friends & Family (group of people holding a sign).

30

STEP 4: KNOW YOUR PARTNERS

- **Schools and Universities**
