DON’T ASK FOR A JOB! WHAT?

Networking is not asking everyone you know for a job!
- Build a relationship and establish rapport

Ask people for information that will assist you in finding the right fit.
- The ultimate goal is that your contact will contact you when they have an opening!
ASK QUESTIONS

- How long have you been with this company?
- How long have you been in this field?
- What do you like about your job?
- What type of training did you need for this position?
- What is the culture of this company?

LISTEN!

- The key to being a good conversationalist is being a good listener.
- Give them the opportunity to share with you, teach you, assist you.
- When you do all the talking, the person may feel you are uninterested in what they have to say.
- We’re there to learn, learn, learn!
- 80/20 Rule!

ASK FOR HELP

- Tap into the network of the people you are meeting
- Each person you meet will know approximately another 200 people
- Gain introductions to some of these contacts to quickly increase your network and your chances of finding an extremely valuable connection.
- Ask your contacts if they can recommend a professional organization or the names of some of the people you should be talking with

KEEP IN TOUCH!

To establish rapport with another person, create a reason to keep the relationship going.
- Join a membership club
- Attend the same events
- Don’t put them in a situation where they will say no!
