DON’T ASK FOR A JOB! WHAT?

Networking is not asking everyone you know for a job!

Ask people for information that will assist you in finding the right fit.

Build a relationship and establish rapport

The ultimate goal is that your contact will contact you when they have an opening!
ASK QUESTIONS

How long have you been with this company?

How long have you been in this field?

What do you like about your job?

What type of training did you need for this position?

What is the culture of this company?
LISTEN!

• The key to being a good conversationalist is being a good listener.
• Give them the opportunity to share with you, teach you, assist you.
• When you do all the talking, the person may feel you are uninterested in what they have to say.
• We’re there to learn, learn, learn!
• 80/20 Rule!
ASK FOR HELP

• Tap into the network of the people you are meeting

• Each person you meet will know approximately another 200 people

• Gain introductions to some of these contacts to quickly increase your network and your chances of finding an extremely valuable connection.

• Ask your contacts if they can recommend a professional organization or the names of some of the people you should be talking with
To establish rapport with another person, create a reason to keep the relationship going.

- Join a membership club
- Attend the same events
- Don’t put them in a situation where they will say no!
